EDUCATION

B.E(CSE) - Sri Eshwar College of Engineering, Coimbatore CGPA:7.70 (up to 5 th semester)	2023-2027
HSC – St Ann’s Higher Secondary School, Villupuram 85.3%	2022-2023
SSLC – Sree Mother Vidhyashram, Villupuram	2020-2021

INTERNSHIPS

MODERN FULL STACK DEVELOPER - Codehub Nexus	JUL 2025
---	----------

- Developed and deployed **scalable MERN Stack applications**, improving modularity and maintainability.
- Designed and optimized **REST APIs** and backend logic, reducing response time by approximately 20%.
- Implemented **secure JWT-based authentication** and **improved session handling** for better security.
- Developed **responsive UI components** using React.js and Tailwind CSS, improving user interaction and consistency.

MERN Stack Intern – Consensus Academy	JAN 2025
---------------------------------------	----------

- Developed a responsive multi-user blogging platform using **MERN stack**, enabling content creation.
- Created **reusable React components**, accelerating development speed and ensuring UI consistency.
- **Optimized frontend rendering** and **API calls**, improving page load time by approximately 1 second.
- Implemented **structured backend logic** with clean **error handling** for enhanced maintainability.

PROJECTS

DevMatch: Tech stack: React.js, Node.js, Express.js, MongoDB, Redux, TailwindCSS. Link	MAR 2026
---	----------

- Built a full-stack platform enabling developers to create profiles, showcase projects, and connect with peers.
- Implemented **JWT-based authentication and authorization** with protected routes.
- Managed global state using **Redux** for improved **scalability** and efficient data flow.
- Integrated real-time messaging using **WebSockets**.
- Designed connection system (send/accept/reject requests).
- Built optimized **REST APIs** and improved **backend performance** for reduced latency.

Blog Application: Tech stack: MERN stack	FEB 2025
---	----------

- Designed and deployed a responsive full-stack blog application supporting multiple users.
- Created a mobile-friendly UI with **React and Tailwind**, enhancing **user experience**.
- Optimized page load speed by 1 second through efficient rendering, **API handling**, and clean code structure.
- Implemented proper **error handling** and **structured backend** for stable performance and maintainability

TECHNICAL SKILLS

Languages: C++, JavaScript, C, Java
Core Concepts: DSA, OOPS, DBMS, OS

Query Language: MongoDB, MySQL
Tools: VS Code, Eclipse, GitHub, JWT

Web Technologies & Frameworks: HTML, CSS, React.js, Node.js, Express.js, Tailwind CSS, Redux

CERTIFICATIONS

AWS – Certified Cloud Practitioner (CLF-C02)	JUN 2026
HackerRank – Problem solving (basics) SQL (basics)	OCT 2024
Udemy – Mastering Data Structures and Algorithms Using C & C++	SEP 2024
Udemy – Learn Java Programming – Beginner to Master	NOV 2024

ACHIEVEMENTS

Solved **350+ problems on LeetCode** (Max Rating: 1581)
Solved **500+ problems on Skillrack** (Top 30 in contest leaderboard)
Secured **2nd place in Coding Contest (HICET)**
Secured **2nd place in Intra-College Project Expo**
